Chicago, Illinois 60604-3590

Re: 1358070001 -- Montgomery County  
Eagle Zinc/Hillsboro  
Compliance File

Dear Mr. Dababneh:

In response to our June 6, 2001 conference call and a follow-up file review of the Eagle Zinc site located in Hillsboro, Illinois, I am providing at your request copies of the following documents:

1. The March 9, 2001 CERCLA 104(e) letters to the three Potentially Responsible Parties (PRPs), and
2. The May 24, 2001 Illinois EPA, Bureau of Land, Field Operations Section letter to Eagle Zinc, with the March 29, 2001 field inspection report attached.

Also, you inquired if there was a Health Assessment Report completed for this site. I have found no evidence that such a report exists. I can inquire further to see if the Illinois Department of Public Health has or plans to do an inspection and the related report. A review of the CERCLA Expanded Site Inspection Report (August 1995) determined that sampling by the Illinois EPA occurred on October 26-27, 1993.

I hope the above and enclosed information answers your questions. If you have any comments or questions, please contact me at the above telephone number. Thank you.

Sincerely,

Rick Lanham, Project Manager  
NPL Unit  
Federal Sites Remediation Section

GEORGE H. RYAN, GOVERNOR
